

LEADERS IN EXTRUSION ENGINEERING FOR THE PLASTICS INDUSTRY

We specialize in developing and delivering complete turnkey extrusion systems, complemented by tailored training programs for plastic manufacturers.

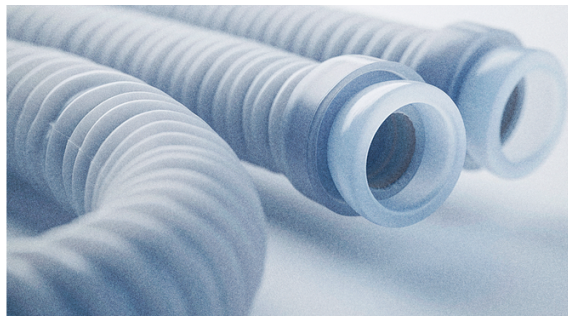

At **Baxter Medical Group** our services include process troubleshooting, advanced computer simulations, and thorough material analysis, ensuring peak performance and efficiency.

With a deep expertise in extrusion, **Baxter Medical Group** delivers significant value to our clients through customized solutions for medical, commercial and industrial applications.

We excel in the development and enhancement of custom turnkey extrusion processes, including:

1. Extrusion lines
2. Custom data measurement systems
3. Engineering consulting services

Our comprehensive support extends to:

- Developing new extrusion processes.
- Analyzing and refining existing systems.
- Problem-solving.
- Delivering fully customized extrusion solutions.
